Work Experience/Internships

Fouses.com Motion Graphic Designer

Jan 2019 - May 2019 | Work from home.

Worked with clients to gather and define requirements, establish scopes and managing project milestones. Developed creative design for illustration, including print materials, brochures, banners and signs. Created animated videos using adobe after effects for use in prototype testing and marketing optimizations.

Softpro India Student Intern

Jun 2019 - July 2019 | Lucknow, India.

Created a new mobile android application using java code including the Firebase realtime database which helps to store users' data and also a Firebase authentication which enables authorized login and logout of users and an added feature to upload image by user using Firebase storage.

Projects

JZ NewsApp

It's a Daily News android application which consists of two modules, an admin and a user. The admin module helps you add, delete or modify any news article. It is hidden from the user and only authorized admins can login into this module. Whereas the user module consists of an account creation with the help of mobile number which is verified via OTP. The user can go through the news article uploaded by an admin.
